

NR Elite Duo window tints are an exclusive range of 38 micron 2-ply optically clear, non-metalized polyester films offering superior clarity and high performing colour stable properties.

These high performance automotive window tinting films offer good heat and glare reduction whilst giving optimum protection against harmful UV rays and the non metalized construction doesn't interfere with radio, phone, or sat nav reception.

## DUO PHYSICAL PROPERTIES

Structure	▶	2-ply
Thickness	▶	1.5 mil / 38 mic.
Construction	▶	Non-Metalized, Colour-Stable
Product Warranty	▶	Lifetime

## PERFORMANCE DATA

Visible Light Transmitted	▶	20%
- Reflected (Interior)	▶	6%
- Reflected (Exterior)	▶	6%
UV Rejection	▶	99%
Glare Reduction	▶	77%
Total Solar Energy Rejected	▶	41%
